British Reinforcements Ready

THIS WEEK

London, Sept. 8. Britain was preparing to rush reinforcements to troubled Cyprus as the three-Power conference on the island's future ended in deadlock last night.

The British Government, fearing fresh terrorism by the Cypriot Greeks demanding 'Enosis'' (union with Greece), made known that fresh naval forces would steam to Cyprus later this week.

CHARLOTTE BRONTE'S NOVELS Contribution In Volume

By Phyllis Bentley

It is a hundred years since Charlotte Bronte died in Haworth Parsonage. Charlotte's life was brief — her age was thirty-nine — and the volume of her work was not large; she wrote only four novels and a handful of unimportant verses. But her writings and her personality seem full of life today.

> Poor little orphaned Jane, despised by her aunt's household, unhappy at school, an insignificant little governess to Rochester's illegitimate daughter, inspires the love of that proud and dominating man by her noble spirit. The superb scene where Rochester first teases Jane by saying she must leave his house, and then asks her to marry him, gives the key to the whole book, for Jane cries passionately:

"Do you think I am a machine without feelings? Do you think, because I am poor, obscure, plata, and little, I am soulless and heartless? If Shirley is Charlotte's most Yorkshire, Villette (1853) i her most Celtic production. Lucy Snowe's adventures in the Brussels school closely follow Charlotte's own, and reflect the terrible anguish and intensity of Charlotte's own feeling. Lucy is indeed a superb pertrayal of Charlotte's favourite character (drawn from herself of course) the ardent, lonely, self-supporting woman. The other main personages, smooth Mme. Beck and honest clever fussy M. Paul Emanuel, are, Lucy, mosterpieces of characterisation, highly original and drawn with a deeply incisive pen.

Names Recall The Welsh Settlers Argentina

Buenos Aires, Sept. 7.

Numerous families named Lewis, Jones and Roberts in Argentina today recall the feats of a gallant band of Welsh settlers who landed on a lonely stretch of beach near what is now the town of Puerto Madryn, in the Territory of Chubut, on the bleak south Atlantic coast.

They landed, 153-men, women and children, from the ship Mimosa commanded by Captain Love Jones Parry, on July 28, 1865, full of hope.

The landing, however, was not a happy one. In the Britain they had left, it was high summer. Here, in Argentina, it was mid-winter. The settlers found, instead of the green valleys which they left back home in Wales, a flat, inhospitable semi-desert. The ground was covered with snow and a Colotty Crow was covered with snow and a 60-mile an hour gale was blowing as they put ashore, and were met by Lewis Jones and gone shead months before prepare accommodation for the By 1873, the Welsh colony numparty on the land ceded to the bered 200. America Too Generous Says Benson

Paris, Sept. 7.

US Agriculture Secretary Ezra Taft Benson said yesterday he fears the United States has been so generous to foreign agricultural competitors that "we've almost lost the once famous Yankee trading spirit."

He urged the American agricultural attache meeting here to help generate "understanding of and confidence in" agricultural policies of the US.

Mr Benson, in a speech prepared for the meeting, said critics who have accused America of failing to trim its farm sur-pluses, of being highly protectionist and of not supporting programmes of sound and mutually profitable international trade are "misinformed." The fact that they 'continue to speak out, however, "may be our fault" for "not telling our
